ACA SERIES: CADILLAC TAX

Will the “Cadillac” Tax Apply to Your “Chevy” Plan?

As the name implies, the Cadillac Tax was developed to penalize employers offering rich benefits. But the way it is designed it could penalize employers with modest plans but high risk populations. To avoid the Cadillac Tax, employers will have to reduce costs and continuously develop strategies that keep healthcare spending at or below normal inflation. Employers are between a rock and a hard place – they need to lower cost and shifting premium costs will not help. Employers need to find real and lasting cost savings. Will the Cadillac Tax drive employers from the market or will it drive employers to demand big changes in the way healthcare is utilized and paid for?

This program is brought to you by:

ATTENDEES WILL LEARN...

- Implications of the SCOTUS King vs Burwell decision
- Overview and implications of the Cadillac Tax
- How stakeholders support employers to lower cost and avoid tax
- Employer Case Study: Preparing for Cadillac Tax
